Digital Literacy for Research

Matthew Frenkel, PhD
Engineering Librarian

Navigating the scholarly landscape can be a challenge for new graduate students. As you begin your journey you may still have many questions:

What is the best way to get started with a research project? What is the best way to stay organize and synthesis my data? Where and how should I publish my findings?

In the *Digital Literacy for Research* professional development workshop track, we will build a roadmap of the scholarly landscape. Through a series of interactive workshops doctoral students will explore what it means to get involved with academic research, from inception to publication. Throughout this track we will cover topics that will expand your knowledge on how to conduct ethical research, best practices in data management, publication and communication, and creating your own digital presence.

Spring 2022 Schedule: Feb. 15, Mar. 1, Mar. 22, Apr. 5—12 to 3pm
All sessions will be conducted in person

Location: 1930/1931 (19th floor, Jacobs Seminar Room), 1 MetroTech Center
