NSF GRFP WRITING WORKSHOP

September 9, 2019

**Jacobs Seminar Room,
1 MTC (1930/1931)**

3 - 5 PM

Join us for an interactive workshop on how to write a successful NSF GRFP proposal. Together, we will explore the review criteria for the Personal Statement and Research Proposal, discuss strategies to develop and draft your documents, and analyze strengths of past winning proposals. You will emerge with a clear sense of how to approach the proposal-writing process, new strategies for voice and structure, as well as material to start working on your proposal draft.

* Applicants must be citizens or permanent residents of US
